NCJA's Center for Justice Planning
Byrne JAG and Byrne SCIP Training and Technical Assistance

NCJA NCJA Center for Justice Planning

OUR MISSION

With support from the Bureau of Justice Assistance (BJA), NCJA's Center for Justice Planning (CJP) provides training and technical assistance (TTA) to state administering agencies (SAAs) managing the Byrne Justice Assistance Grant (Byrne JAG) program and the Byrne State Crisis Intervention Program (Byrne SCIP). The CJP also provides TTA to local Criminal Justice Planning Boards (CJPBs). This TTA program provides a wide variety of resources and guidance to help SAAs ensure Byrne JAG and Byrne SCIP funding is administered effectively, from planning to reporting outcomes.

OUR TTA IS:

- Responsive to existing and emerging issues
- Informed by evidence-informed practices and trends from the field
- Flexible—from simple (email/phone support) to complex (customized content, training)
- Based on each SAA's individual needs

TOOLS

Resources

...toolkits, guidebooks, multimedia content (publications, podcasts, webinars, videos)

Strategic Planning

...training, direct guidance, planning sessions, support—both on-site and virtual

Collaborative Opportunities

...peer-to-peer learning, regional calls, national conferences

OUR WORK

Our work covers the following, and more! To request TTA, email strategicplanning@ncja.org.

- Direct assistance with all areas within the development of your strategic plan
- Developing SMART goals and performance metrics
- Facilitating stakeholder and local planning board engagement
- Assisting with stakeholder engagement efforts
- Developing surveys
- Facilitating focus groups and planning sessions with your state planning bodies
- Researching promising programs and nationwide trends
- Developing peer-to-peer learning connections
- Support for data collection efforts and program evaluation
- Providing Subject Matter Experts (internal & external) in areas including data sharing, braided funding, grants management, community-based violence reduction, sequential intercept model (SIM) mapping, local criminal justice system engagement, behavioral health programing and more.
